When: Monday, August 17, 2020, check-in begins at 9:00 a.m., program kick-off at 9:30 a.m (attendance required).

Parking
Parking for check-in and dropoff is provided in the Ag Arena parking lot. For students parking their car for the duration of the program, parking passes are available on your ORION application for a cost of $25.

Backpacking
Although each ORION expedition will vary, participants should expect to spend several days and nights backpacking with their group. Each participant can expect to carry a 30- to 40-pound pack containing food, gear, and personal items 4-10 miles a day on variable terrain at a pace decided by the group. (Participants are encouraged to physically prepare before arriving.) During this time you will learn a great deal about yourself and others as you hike, camp, keep a journal, and explore. Together with your peers and instructors, you will learn the proper methods of environmentally conscious camping, including group cooking, tarp placement, water purification, and backcountry hygiene.

Cell Phone Policy

Cell phones are not permitted on your trip. You may bring them on opening day, but they will be left in a secure location with any bags or extra items for the duration of your experience. Cell phones distract from the experience that your AURORA trip aims to provide in the backcountry. Your trip leaders will have cell phones for use only in case of an emergency.

Physical Preparation

The best way to prepare for ORION is to spend some time undertaking physical conditioning—if you are used to sitting in a classroom all day, start walking and then increase to running, hiking, swimming, and any other cardiovascular activity that will help get you in shape. Physical preparation, specifically walking, is a good way to break in your boots.

Hiking Boots

The most important piece of equipment that you will bring. Be sure the boots you have are truly made for hiking. They should fit you well with some wiggle room, be well broken-in, and sturdy. If you are buying new boots, be sure to work with your local outdoor retailer to ensure that you have the proper fit and correct boot for your feet. Blisters are a common complaint with ORION participants. If your feet are sore on the trail, you will not enjoy the program as much as you could.

Clothing and Layering

Excerpted from Rick Curtis’ The Backpacker’s Field Manual

The clothing layers should consist of several different types of fabrics. Cotton is comfortable and breathable, but it absorbs and retains water, and therefore it will NOT keep you warm if it gets wet. Also, it can be difficult to dry. For this reason you should NOT bring cotton clothes such as sweatshirts, sweatpants, socks, or jeans. We strongly encourage you to wear nylon, polyester or synthetic clothing. Wool, synthetic fleece, and polyester fabrics don’t absorb water so they keep you warm even if they get wet. Fleece also dries very quickly. A wool sweater or fleece jacket provides warmth on a cold evening. These are essential to your comfort on the trip!

Group Gear

ORION will provide all necessary group gear and equipment. This includes backpacks, sleeping bags, sleeping pads, tarps, stoves, first aid kits, maps, and other items. You are welcome to bring your own personal backpacks, sleeping bags, and sleeping pads if you desire, but they will be assessed by our staff before departing on the trip.
