Additional Info

Cell Phone Policy

Cell phones are not permitted on your trip. You may bring them on opening day, but they will be left in a secure location with any bags or extra items for the duration of your experience. Cell phones distract from the experience that your AURORA trip aims to provide in the backcountry. Your trip leaders will have cell phones for use only in case of an emergency.

Physical Preparation

The best way to prepare for URSA is to spend some time undertaking physical conditioning—if you are used to sitting in a classroom all day, start walking and then increase to running, hiking, swimming, and any other cardiovascular activity that will help get you in shape.

Footwear

The most important piece of equipment that you will bring is sturdy, comfortable, closed-toed footwear. Hiking boots are a great option, as some of the service sites are likely to be dirty and muddy. They should fit you well with some wiggle room and be well broken-in and sturdy. If you are buying new boots, be sure to work with your local outdoor retailer to ensure that you have the proper fit and correct boot for your feet.

Group Gear

URSA will provide all necessary group gear and equipment. This includes daypacks, sleeping bags, sleeping pads, tarps, stoves, first aid kits, and other items. You are welcome to bring your own personal sleeping bags, and sleeping pads if you desire, but they will be assessed by our staff before departing on the trip.

COVID-19 Policies & Protocols

We are committed to the well-being of our students and staff. By constantly evaluating our response to COVID-19, we will stay current with industry-standard practices to best ensure the safety of everyone. For the most up-to-date information, please visit our website.

Clothing and Layering

Excerpted from Rick Curtis' The Backpacker's Field Manual

The clothing layers should consist of several different types of fabrics. Cotton is comfortable and breathable, but it absorbs and retains water, and therefore it will NOT keep you warm if it gets wet. Also, it can be difficult to dry. For this reason **you should NOT bring cotton clothes** such as sweatshirts, sweatpants, socks, or jeans. We strongly encourage you to wear nylon, polyester, or synthetic clothing. **Wool, synthetic fleece, and polyester fabrics don't absorb water so they keep you warm even if they get wet.** Fleece also dries very quickly. A wool sweater or fleece jacket provides warmth on a cold evening. These are essential to your comfort on the trip!

Follow-up Classes & Assignments

There will be two follow-up evening class sessions, one in September and one in October. You will reconnect as a small group and focus on ideas of leadership and wellness. A few assignments will be completed early in the semester. These assignments are not designed to overwork you; they will help you understand wellness and reflect upon your AURORA experience. More information regarding your classes and assignments will be provided in the course syllabus.

Early Move-In

As an AURORA student, there may be an opportunity to arrive early to University Housing. Once arrival details are published, information will be posted at arrival.psu.edu under the "Special Programs" section.

To ask any questions, please contact the assignment office by writing to: assignmentoffice@psu.edu or by calling: (814) 865-7501.
